# Remotely operated transfer switch ATyS S 4P 100A 230 VAC

ATyS S products are 4 pole remotely operated transfer switches with positive break indication.

They enable the on-load transfer of two three-phase supplies via remote volt-free contacts, from either an external automatic controller, using pulse logic, or a switch. They are intended for use in low voltage power supply systems where a brief interruption of the load supply is acceptable during transfer.

### Strong points

- Extensive power supply range
- Safety and reliability
- Easy integration
- Simplified maintenance

### General characteristics

- Range from 40A to 125A.
- Available in 4P.
- Compact design.

### Compliance with standards

- IEC 60947-6-1
- IEC 60947-3
- GB/T 14048.11
