NETYS PR

High density, compact power protection on rack

1000 and 1500 VA - Rack 1U

A professional UPS

 Designed for professional environments, protection against power cuts and over voltage is ensured by Line Interactive technology with Automatic Voltage Regulation (AVR).

An installation adapted to the networking environment

- NETYS PR rack provides high power density (1U - 45 mm) which conserves valuable space in the rack for other equipment.
- Can be easily installed in 19" and 23" Rack cabinets, depending on the user's needs. The UPS is provided with rails and mounting accessories.

Adapted connections

• Easy connections to the applications via 4 IEC 320 (IT standard) sockets.

Data line protection

• With RJ45 connector.

Communication with the computer system

- RS232 or USB advanced connections for the management of the power supply and local / remote shutdown of applications.
- Advanced diagnostics and remote control via various protocols and user environments: JBUS, HID, SNMP, TCP/IP.

The solution for

- > Professional and IT equipment
- Servers and networking devices
- CAD / graphic workstations with monitors and peripherals
- Control systems

Technology

> VI "line interactive" with AVR, sine wave

Certifications and attestations

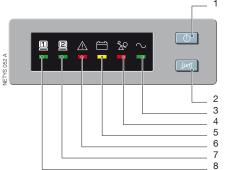

ETYS PR Single-phase UPS 1000 and 1500 VA - Rack 1U

Connections Included 1. Slot for optional communication boards Mounting bracket for 19" rack 2 2. Input protection 3 3. Network Transient Protector 4 4. Output sockets (IEC 320 10 A) 5. DIP switches 06 A 6. RS232 serial port **VETYS 1** 5 7. USB Port 6 8. Main input socket (IEC 320) 7 1. Mounting bracket 8

Control panel

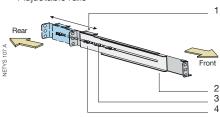

1. ON-OFF button

- 2. Test / Alarm reset button
- 3. Power ON
- 4. Overload
- 5. Battery mode
- 6. Service
- 7. Load segment 2 8. Load segment 1

- 2. M3 x 6 bracket screws
- Adjustable rails

- 1. Rear Hold-Down Bracket
- 2. Rail assembly
- 3. Assembly Wing Nuts
- 4. Wing nut for rear Hold-down bracket

Standard communication features

- 1 slot for communication options.
- USB port for UPS management based on HID protocol.
- MODBUS RTU (RS232).
- LOCAL VIEW software for local UPS monitoring and shutdown for Windows, Linux and MAC Osx.

Communication options

- Dry-contact interface.
- NET VISION: professional WEB/SNMP Ethernet interface for secure UPS monitoring and remote automatic shutdown.
- Environmental Monitoring Device (EMD).
- REMOTE VIEW PRO supervision software.

Battery Hot-swap

- Battery can be hot-swapped without having to shut down the connected equipment.
- Battery can be replaced from the front without removing and disconnecting the UPS.
- Battery check system and replacement indicator.
